

Overview presentation (ID: D301, Status: 1.0)

Swiss non-profit public association, founded 18th of August 2017

Federation of Swiss IT Experts

Förderverein Schweizer Informatikexperten / -expertinnen

Fédération Suisse des Experts en Informatique

Federazione Svizzera degli Esperti d'Informatica

The Title Expert FSIE™

Motivation - Problem Areas ...

(1) The quality and security of IT and the digital services are a critical backbone of our economy and society!

(2) Failures and flaws caused by deficient competences of decision makers and experts that or often not IT Experts

(3) The dynamics in IT is unsettling and causes a limited desirability to choose this profession as a study and career

(4) The decreasing market value of aged IT professionals causes bail outs from IT and contributes to the lack of professionals

(5) IT Experts speak in specialized terms and the efficiency of collaboration remains unsatisfactory

The Solution

**The IT
Post-Graduate
Lifelong Learning
and Practice Title**

What FMH is for Medicine, the FSIE is for IT!

... and our Solution that existing IT-Certificates do not cover

(1) The FSIE is a Swiss non-profit association respecting our local education situation and enforcing ethical behaviour in the interest of society

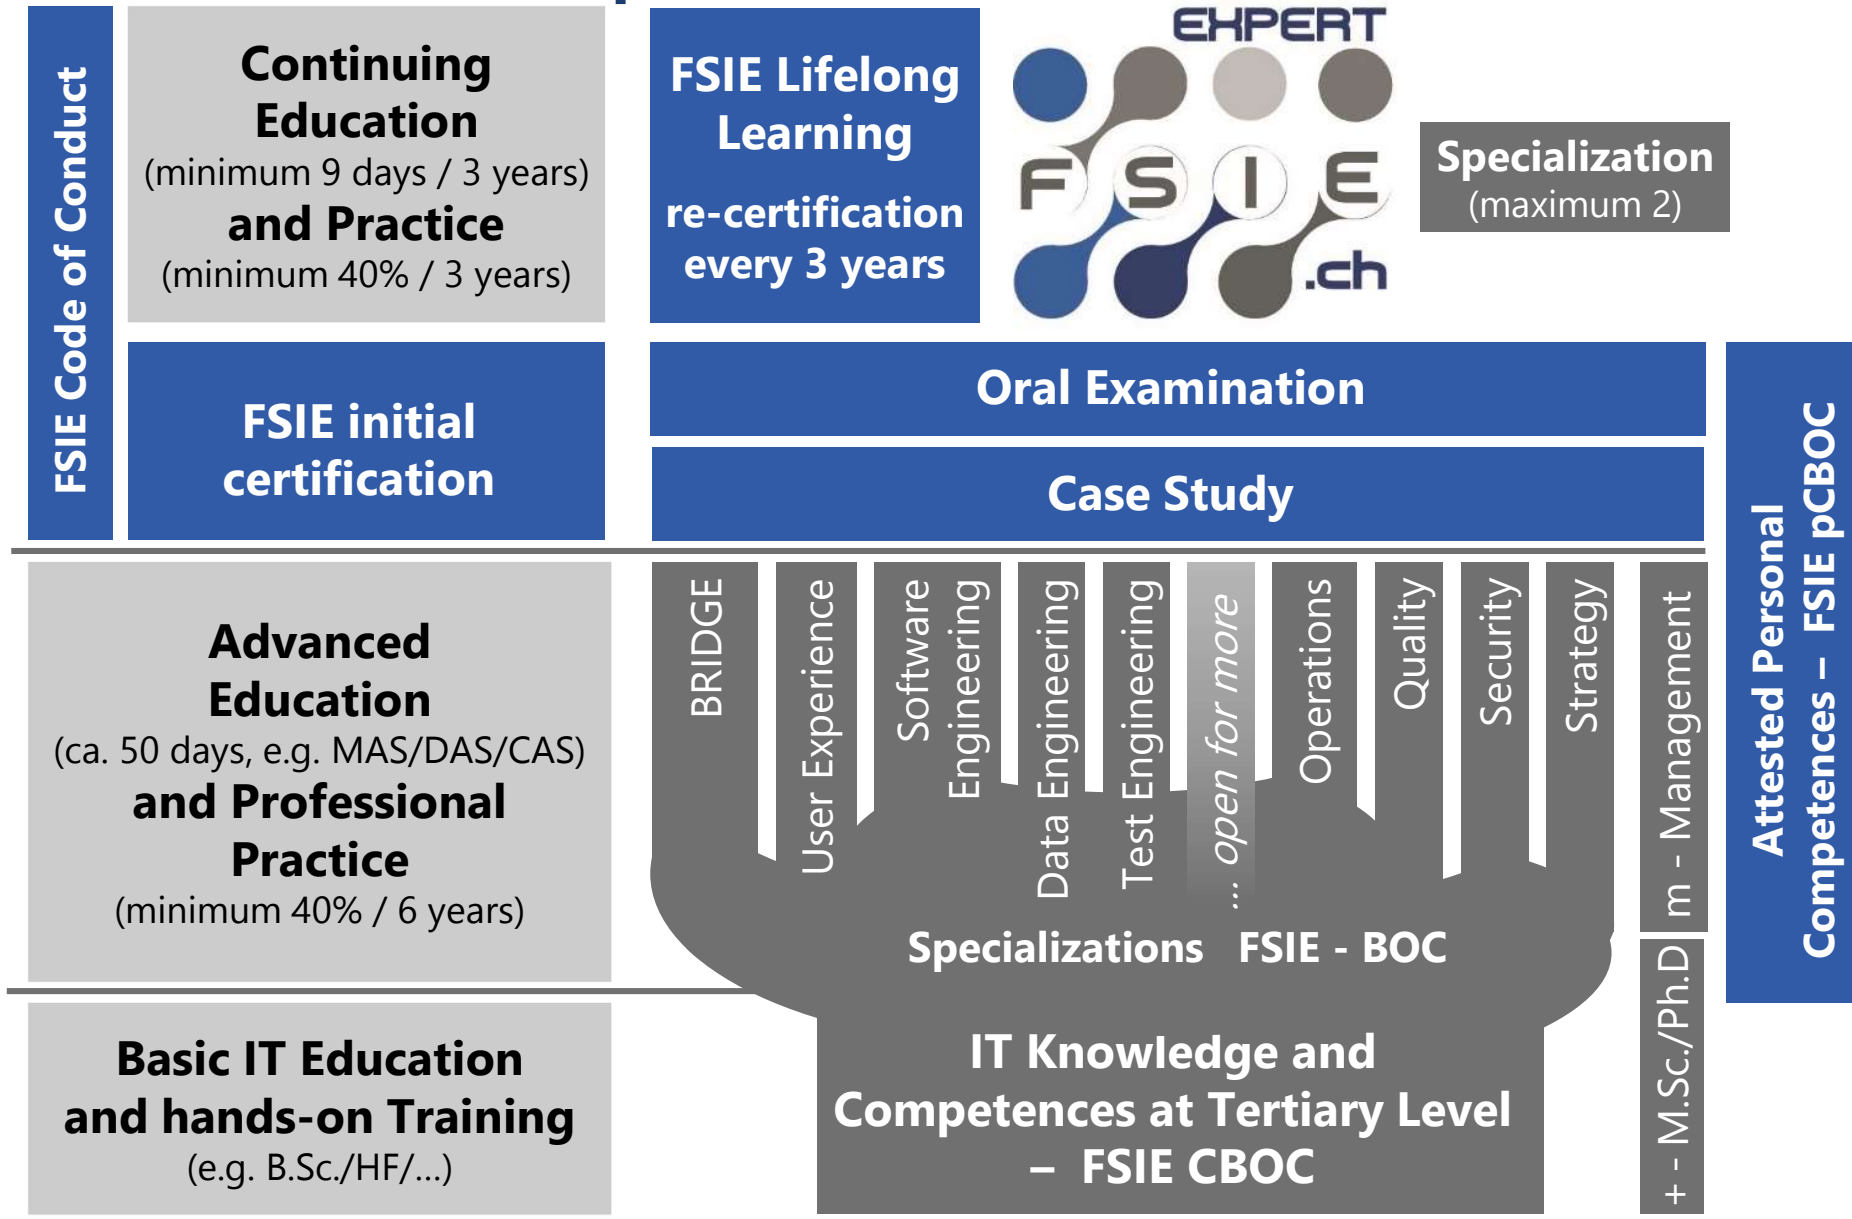

(2) Experts FSIE are recognized and apply best practices in a professional way – projects are successful

(3) The titles Expert FSIE™ remain long-term valid as they correspond to generic IT professional profiles

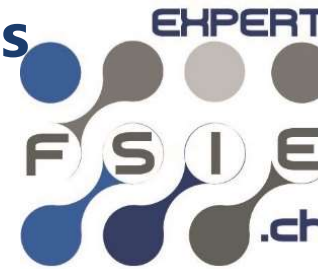

(4) The FSIE validates the continuing education and practice of the experts which thereby remain methodically and technically up-to-date from career start to end

(5) The common vocabulary CBOC (Core Body of Competences) of all specializations guarantees efficient collaboration

The Solution Concept

Generic IT Profiles - Specializations

Profil aus Berufe der ICT - swissICT
Bereichsleitung CIO. Firmenleitung
ICT-Architekt (Firma)
Qualitätsmanager
